House Captain and Vice Captains for 2024 2025

We are excited to announce of our House Captains and Vice Captains. The children who put themselves forward for this important role were tasked with making a persuasive poster outlining their qualities and sharing information about themselves. These were then shared with the children across the school in each house team.

It was a close vote across each team. The House Captains and Vice Captains have an important role to play across the year, as the voice and advocate for their houses. Last year the House Captains started a Behaviour project with me, which the new leads will continue.
